# 11th International Conference on Quality of Multimedia Experience

5 - 7 June 2019

Berlin, Germany

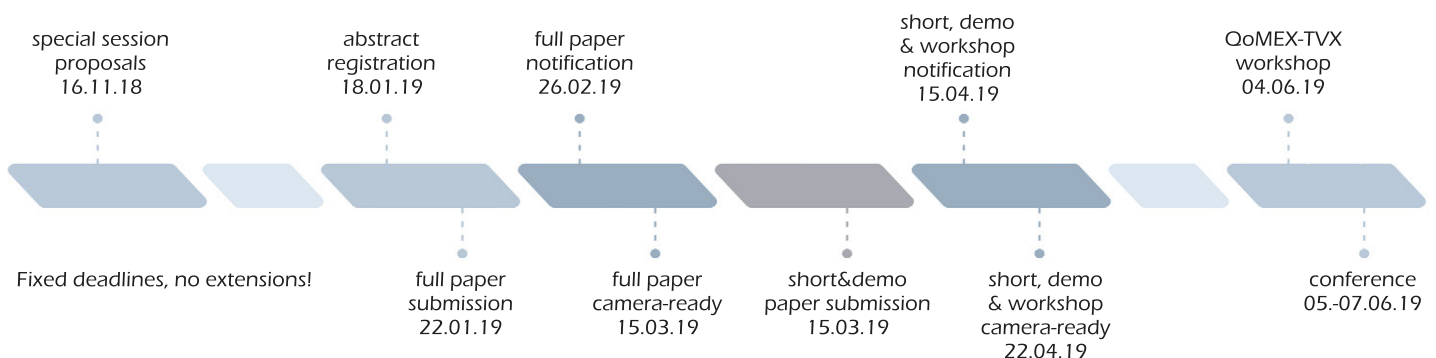

## Towards an integrated view of QoE and UX

The **11th International Conference on Quality of Multimedia Experience** will be held in **June 5th to 7th, 2019** in **Berlin, Germany**. It will bring together leading experts from academia and industry to present and discuss current and future research on multimedia quality, quality of experience (QoE) and user experience (UX). This way, it will contribute towards an integrated view on QoE and UX, and foster the exchange between the so-far distinct communities.

Prospective authors are invited to submit full or short papers (maximum of 6 or 3 pages, respectively) to the general track, to the workshop on Highlights from QoMEX and TVX of the last 5 years, and to special sessions. A new demo paper format will be offered for content which requires live demonstrations. Each paper will undergo a double-blind review process. Full, short and demo papers will be included in the Conference Proceedings. Full and short papers will be published in IEEExplore.

### Topics of interest include:

- QoE and UX: Concepts and links
- Novel assessment and evaluation methodologies
- Quality, Experience and User State and Behavior
- New interactive applications
- QoE and UX management in a mobile, connected world
- Quality of Life
- Multimodal perception & quality
- Immersive technologies
- The user as data source
- QoE, UX and content creation
- Aesthetics
- Communities, social media and demographics
- Model development & validation
- QoE data analytics
- Databases for QoE and UX research
